

Appendix G

Suggested Further Reading

G.1 Tutorial Material

1. Perry G. Absolute Beginners Guide to C. SAMS Publishing. 1994. This book gets great reviews on Amazon and looks excellent for beginners.
2. Davies P. The Indispensable Guide to C With Engineering Applications. Addison-Wesley. 1995.
3. Kelley A. L. and Pohl, I. A Book on C. Addison-Wesley. 1997.
4. Tyrrell, A. M. and Smith, S. L. and Dell, J. A. Essence of C for Electronic Engineers. Prentice Hall. 1998.
5. Deitel, H. and Deitel, P. C: International Version: How to Program. Prentice Hall International. 2009

G.2 Reference Material

1. Kernighan, B. W. and Ritchie, D. M. The C Programming Language. Prentice-Hall. 1988. This is still the definitive guide to C written by the creators of the C language.
2. Prinz P. and Prinz-Kirch U. Pocket Reference. O'Reilly 2002.
